BEAUTIFUL AS WOOD

REAL WOOD STRUCTURE

Unique and realistic wood design
selected from the most beautiful
wood type in the world.

SILENT FLOOR

Nice and silent in everyday use
vinyl flooring brings comfort
and serenity to everyday life.

SOFT TOUCH

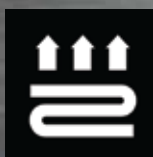

Soft, delicate and mat
finished flooring - the best
representation of
real wood and stone.

PRACTICAL AS CERAMIC TILES

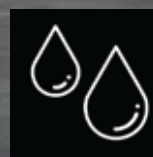

DURABILITY & STRONG LOCKS

HD Mineral Core primary means extremely strong locking system what gives the whole flooring system and maximum durability. Despite of small thickness of the plank our locks are 2 times stronger than average LVT locks available on the market.

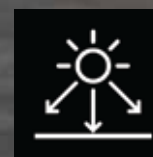

UNDERFLOOR HEATING

Very low thermal resistance of our floors means more effective use of the underfloor heating system. Thanks to HD Mineral Core less fuel is needed for heating and over 60% less carbon is released into the atmosphere from one household in Europe, each year.

WATERPROOF

No need to be scared of water. Our floors are 100% waterproof. Frequent cleaning or spilled drinks are no longer dangerous to your floor. Without concerns you can connect your kitchen floor with the rest of your living space.

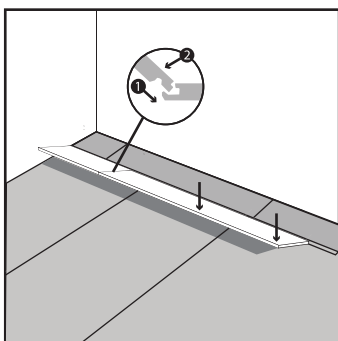

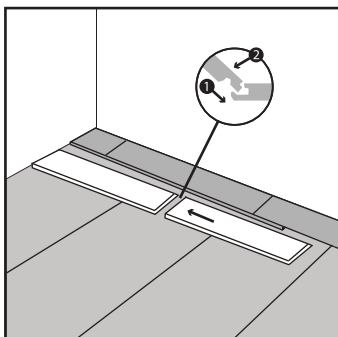

DIMENSIONAL STABILITY

HD Mineral Core also means high dimensional stability of the floor even in very sunny rooms. We offer at least 2 times higher dimensional stability of our floors in comparison to traditional LVT.

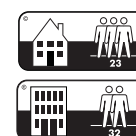

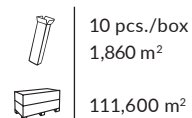

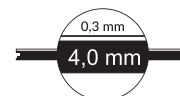

2G® LOCKING SYSTEM is a strong and durable mechanical locking system installed by angling. Suitable for all panel widths, vertical and horizontal locking. Robust and easy floor installation.
