**From one pallet per day in 1989,
to 27 million sqm of annual production in 30 years**

After graduation,
Mirosław Szymański
starts working
at a ceramics plant
in Opoczno

1976

During the period of political
transformation in Poland,
together with his four
colleagues sets up **CERROL**,
a company manufacturing tiles
in double-firing technology

1989

He becomes the chief
mechanic at ZZPC
Opoczno and later the
Technical Director

1980

The Polish partners establish
CERAMIKA KÓNSKIE,
which was joined by **Adriano
Frascari** – owner of a bisque
manufacturing company

1994

CERART STUDIO,
a manufacturer of
decorations complementing
wall collections, is established

1996

They launch Europe's
largest bisque
manufacturing company

2000

Mirosław Szymański receives the
Badge of Honor for meritorious
performance in the construction
industry and is awarded the Silver
Cross of Merit by the President of
the Republic of Poland

2004

STARGRES company
is established, where
production of gres
tiles begin. Initially
33x33 cm format only

2005

The Partners take over
CERAMIKA COLOR.
Total production of
ceramic wall tiles reaches
6 million sqm per year

2008

STARGRES is the
first manufacturer
in Poland and second
in the world to introduce
3 cm thick tile – **STAR 3.0**

2014

Creation of a new
CERAMICA BIANCA
brand

2019

KÓNSKIE
GROUP
since 1989

For more than 30 years, the Końskie Group has been growing and building its value on the ceramic tile market

As a group, we invest in technology, development and most importantly, in our employees. Końskie Group is a family-owned company, devoid of unhealthy rivalry. The design of our collections is the result of cooperation between the best European graphic studios and the experience of Końskie Group employees.

We are inspired by the beauty of nature, the richness of culture and the diversity of art and the resulting wide range of products allows one to design an infinite number of space arrangements in and around the house.

Dynamic development – modern production lines

The short decision-making path allowed us to open in 2019 another modern production line, which enables the production of **3 cm thick 90x90 cm gres tiles**, with a strength of over 3 tons of pressure.

Also, during the tough period the global economy was in, caused by, among other things, the COVID-19 pandemic, we managed to increase our capital, which enable the companies plan further dynamic development.

In April 2022, we launched two more 3 cm thick gres slab production lines. This gives us an increase of **1 million sqm** in annual production of terrace gres tiles.

Wiktoria Czyżewska

2020/2021 European Champion in MMA
2021 Polish Champion in MMA
2022 Polish Champion in MMA

Charlotte Glaser

2019 German Champion in WKU in the class up to 57 kg
2020 European Champion in WKU in the class up to 60 kg
2021 European Champion in WKU in the class up to 57 kg

Thanks to business predictability, investments in technologies and people, the Końskie Group is constantly increasing its turnover. Over the last few years, multiple crucial talks, and above all thanks to good decisions, as a Group, we came out with increased capital.

The above led to the fact that under the wings of the Stargres brand we accepted two champions of various combat sports - **Wiktoria Czyżewska** and **Charlotte Glaser**. The contestants represent various fighting styles, but they share common characteristics - the will to constantly improve, perseverance and in the first place, hard work.

We are proud to support talented women whose stories can inspire crowds.

60% of sales are exports to 51 countries worldwide

Our geographic location offers good communication and logistics. An uninterrupted supply chain has been helping us to seamlessly transport our product for years – in our 30 years of operation, the Końskie Group has managed to reach 51 countries across all continents.

Quality of our products confirmed by numerous certificates and attestations

The beautiful design is accompanied by excellent quality. We are aware that the customers' expectations are growing every year, which is why we are upgrading our machinery in accordance with certificates in line with European standards. In addition, we received a confirmation of a Type III Environmental Declaration (EPD).

In 2021, at all plants belonging to the Końskie Group, we introduced Quality Management Systems for the production and sales of ceramic tiles in the form of ISO 9001:2015.

We owe the success of our company to all the people who make it up

We are far from corporate structures in our management. It is best evidenced by the low rate of employee turnover, thanks to which the Końskie Group has a permanent, well-trained staff. Good human resources management results in lower bureaucracy, quick decision-making and consequently, professional customer service.

Among many Polish companies, we are distinguished by a management style, whose philosophy is based on direct contact with the customer, supplier or intermediary. We are guided by one premise – our product is created with the human being in mind.

Ceramic tile production is closely related to nature, ecology and care for natural resources

For the sake of the environment, we shorten the supply chain of raw materials to production facilities as much as possible. With the use of modern production techniques available throughout the industrial process, we minimize air pollutants emission and reduce electricity consumption. We take care to minimize the use of water, energy and packaging. We are investing in solutions to reduce gas emission. The Group's nature conservation activities have been further confirmed by a **Type III Environmental Declaration (EPD)** developed under the guidelines set out in **PN-EN 15804** and verified by an independent auditor in accordance with **ISO 14025**.

The ecological quality of the cycle makes it possible to reduce the consumption of natural resources and reduce the harmful impact on the environment.

We assure you that we will continue our efforts to improve products, services and customer service.

DesignNature & Końskie Group

With the face of new environmental challenges, we recognize the need for changes in approach to the product. Being aware of our environmental footprint, we decided to become a **Design Summer School Season 2022 Partner**. Integrating technology with creativity opens pathways for us to look at our product differently.

DesignNature is a community based on shared values of holistic, sustainable design, respect for nature and an appetite for the good life – bringing people, organizations and businesses together to create unique creative synergies.

The creative campus, located in a beautiful natural setting, combines stimulating creative thinking with an advanced machinery park. It includes fully-equipped, comprehensive prototype facilities for conducting extensive interdisciplinary research and development processes.

Tomasz Rygalik

Gosia Rygalik

Franek Wardyński

Lia Forslund

Design Summer School 2022

Our vision is consistent with ecological and sustainable development and, above all, with care for natural resources. Surrounding ourselves with experts in their fields inspires us and supports our business.

Workshops led by **Tomek** and **Gosia Rygalik**, as well as **Lia Forslund** and **Frank Wardyński**, took participants through a process of conceptual and practical creative work in the soothing natural surroundings of the **DesignNature campus in Sobole**.

The point of inspiration was the production of ceramic tiles, which is at the heart of our business and is closely connected to nature. All four elements - earth, water, air and fire - are part of the production process, in which everything is interdependent, interrelated and interconnected. Therefore, each week of the workshop was dedicated to one of the elements.

2022 is the year of a new look at our business and the world around us. We are glad that we were given the opportunity to harness the potential of our industry to create new solutions related directly to ceramic tile.
