saves time, does not require expensive substrate

STAR
3.0

SAVINGS

due to STRENGTH

NO NEED to install 5th support/pedestal as recommended for 2-cm tiles

STAR
3.0

SAFETY OF USE

100%

GREATER STABILITY

3.0

**guaranteed by 50% more
weight than 2-cm tiles**

STAR
3.0

SAFETY

50% MORE WEIGHT

prevents tiles from lifting due to strong gusts of wind

USE

high SLIP RESISTANCE

min. R11 ensures good adhesion on a wet surface

STAR
3.0

USE

THERMAL SHOCK resistance and full **FROST RESISTANCE**

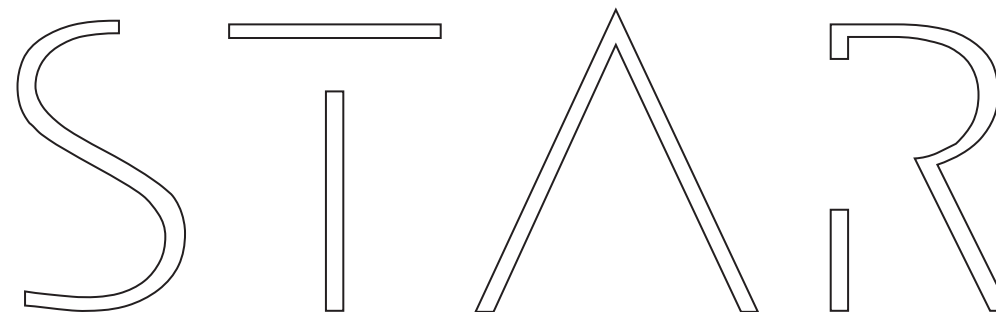

STAR
3.0

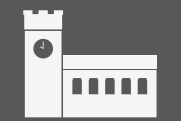

USE

the water absorption rate of 0.2%
makes the surface resistant to dirt
and biochemical contamination

APPLICATION

3cm tiles offer 2 times more application possibilities
